## EXPERIENCE

### LEO BURNETT KUALA LUMPUR
Digital Interactive Department / January - March 2013

Assisting the team in creating and animating web banners, site visuals and competitor analysis for clients such as Samsung and Petronas.

### DRATFCB KUALA LUMPUR
Digital Design Department / January - March 2014

Assisting the team in developing web visuals, banners, website skins and mockup for website user interfaces. Clients include Celcom & Xpax.

## SKILLSETS

### TECHNICAL

I'm quite proficient in digital graphics and desktop publishing softwares including Adobe Photoshop, Illustrator, InDesign, After Effects, Autodesk Maya and PaintTool SAI.

For front-end web development I'm comfortable with coding in HTML5 / CSS3 and to certain extent, LESS, Javascript and jQuery.

### CONCEPTUAL

My not too shabby conceptual skills ranges from User Experience design, usability testing, rapid prototyping websites to art direction and music composition.

I use either Adobe Fireworks or Axure for digital prototyping although the best tool for me to start with is pencil and paper.
